

Portable Hand Wash Station

**Portable Hand Wash Station**

**OVERVIEW**

The DEW Portable Hand Wash Station is a rugged standalone unit ideally suited for use in locations such as construction sites, remote camps, public gathering events and to augment existing infrastructure when extra capacity is required, such as grocery, hardware and department stores. The built in, on demand water heater is available in gas or electric models, produces adjustable temperature hot water at a rate of up to 1.35 Gallons per minute.
